

## enLight10 Solutions, LLC

Cybersecurity | Secure Operations | MSSP & Advisory

---

### Company Overview

enLight10 Solutions, LLC is a cybersecurity and secure operations firm delivering **Managed Security Services (MSSP)**, **fractional CISO advisory**, and **AI-augmented cyber defense capabilities** to **government, Defense Industrial Base (DIB), and mission-critical commercial organizations**.

Founded and led by experienced cybersecurity leadership, enLight10 focuses on **operationally grounded security**—combining people, process, and automation to improve **detection, response, compliance readiness, and executive decision-making** without unnecessary complexity or tool sprawl.

Our approach emphasizes **integration over replacement**, enabling organizations to enhance existing SOC, IR, and compliance workflows while preparing for emerging threats, including **AI-enabled adversaries**.

---

### Core Capabilities

#### Managed Security Services (MSSP)

- 24/7 Security Operations Center (SOC) support
- Threat detection, triage, and incident response
- SIEM integration, tuning, and optimization
  - Splunk
  - OpenSearch / Elastic
  - Microsoft Sentinel
- Endpoint, network, and cloud security monitoring
- Alert fatigue reduction and investigation acceleration
- SOC maturity assessments and operational uplift
- Automation and SOAR-aligned workflows

---

#### Cybersecurity Advisory & vCISO Services

- Fractional / Virtual CISO (vCISO) engagements
- Security strategy, roadmaps, and governance
- Board and executive cybersecurity briefings
- Enterprise and program-level risk assessments
- Risk register development and treatment planning
- Security metrics, KPIs, and executive reporting
- Incident response planning and tabletop exercises
- Third-party and vendor risk management

---

#### Compliance & Audit Readiness

- SOC 2 (Type I & Type II) readiness
- NIST Cybersecurity Framework (CSF)

---

- NIST SP 800-53 alignment
- CMMC (Levels 1–3 readiness support)
- FedRAMP-adjacent control alignment
- Policy and procedure development
- Evidence collection and audit preparation
- Remediation planning and continuous compliance support

---

## AI-Augmented Security Reasoning

enLight10 develops and applies **Watchtower CRP (Cyber Reasoning Platform)** — an AI-assisted capability designed to **augment analysts and security leaders**, not replace them.

Watchtower CRP supports:

- Analyst decision support and investigation reasoning
- Alert enrichment and context correlation
- Threat hypothesis generation and validation
- Compliance evidence mapping and explanation
- Knowledge retention and SOC continuity
- AI-assisted triage, reporting, and workflow acceleration

CRP is deployed **internally and partner-facing** to validate real-world operational value while avoiding vendor lock-in or rip-and-replace approaches.

---

## Differentiators

- **Operational-First**  
Built by practitioners who have led SOCs, incident response, and federal security programs
- **AI With Purpose**  
Focused on analyst trust, reasoning, and explainability — not black-box automation
- **Integration-Friendly**  
Enhances existing tools, teams, and workflows
- **Defense & DIB Aligned**  
Designed for regulated, mission-critical environments
- **Founder-Led Delivery**  
Direct senior leadership involvement
- **Flexible Engagement Models**  
MSSP, advisory, or hybrid

---

## Primary Use Cases

- DIB organizations requiring MSSP support and CMMC readiness
- Federal-adjacent programs seeking SOC modernization
- Prime contractors needing specialized cybersecurity partners
- Organizations preparing for audit, compliance, or ATO pathways
- Teams seeking AI-assisted SOC and IR acceleration without tool sprawl

## Company Information

**Legal Name:** enLight10 Solutions, LLC

**Founded:** 2024

**Headquarters:** Honolulu, Hawaii

**Service Area:** United States (Remote / Distributed)

**UEI:** W1ZNPAX2FG7

**CAGE / NCAGE:** 17BE8

**SAM Registration:** Active

**Purpose of Registration:** All Awards

---

## NAICS Codes

- **541512** – Computer Systems Design Services (*Primary*)
- **541511** – Custom Computer Programming Services
- **541513** – Computer Facilities Management Services
- **541519** – Other Computer Related Services
- **541690** – Other Scientific and Technical Consulting Services

---

## Leadership

### Jay Moreno

Founder & Technical Director

Cybersecurity executive with deep experience in:

- SOC leadership and operations
- Federal and defense-adjacent cyber programs
- Incident response and threat operations
- Security architecture and modernization
- Compliance and risk management
- AI-assisted security workflows

---
